

POST-ASH SIGNIFICANT HIGHLIGHTS

Wednesday 8th February 2017

Manchester Conference Centre, Sackville Street, Manchester M1 3BB

Chairs: Dr Robert Marcus (*King's College Hospital, London*) & Dr Dominic Culligan (*Aberdeen Royal Infirmary*)

HOW RECENT ADVANCES IN DIAGNOSTICS ARE NOW INFLUENCING CLINICAL PRACTICE IN THE ERA OF "PRECISION MEDICINE"

08.45 *Registration, tea, coffee and pastries*

SESSION 1:

09.20 Welcome and introduction

Dr Robert Marcus
King's College Hospital, London

09.30 Precision medicine applied to lymphomas

Professor Anna Schuh
University of Oxford

10.15 Q & A

Panel: Professor Anna Schuh

10.30 Molecular diagnostics - myeloid

Dr Catherine Cargo
HMDS, Leeds

11.15 *Coffee*

SESSION 2:

11.35 Acute myeloid leukaemia

Professor Nigel Russell
Nottingham University Hospital

12.05 Discussion: Is there still a place for transplant in APML?
What options are emerging for AML relapsing post-transplant

Panel: Professor Nigel Russell,
Dr Catherine Cargo & Dr Dominic Culligan

12.20 Acute lymphoblastic leukaemia

Dr Deborah Yallop
King's College Hospital, London

12.45 Myelodysplastic syndromes

Dr Dominic Culligan
Aberdeen Royal Infirmary

13.10 *Lunch*

SESSION 3:

14.10 High grade lymphoma

Dr Graham Collins
Oxford University Hospitals

14.40 Low grade lymphoma

Dr Piers Patten
King's College Hospital, London

15.10 Discussion: Focus on GALLIUM
How are results going to affect UK practice?

Panel: Dr Robert Marcus, Dr Graham Collins &
Dr Piers Patten

15.20 Hodgkin's report from 10th ISHL Cologne

Professor Tim Illidge
University of Manchester

15.50 *Coffee*

SESSION 4:

16.10 Myeloproliferative disorders

Professor Claire Harrison
Guy's and St Thomas' Hospital, London

16.40 Myeloma

Professor Graham Jackson
NCCC, Freeman Hospital, Newcastle

17.10 Late-breaking news and main scientific breakthroughs

Dr Robert Marcus
King's College Hospital, London

17.30 *Close*
