

24th Annual Clinical & Scientific Meeting

Thursday 26th May 2022

You are invited to submit abstracts for the 24th Annual BIA Spring Meeting. Abstracts should be submitted as free papers or clinical lessons.

INSTRUCTIONS FOR SUBMISSION OF ABSTRACTS

- Abstract submission is via the BIA website <http://www.britishinfection.org>
- Click on the link for BIA Spring Meeting
- Click on the link for abstract submission and follow instructions
- After registration with the abstract administration system, the abstract instructions for abstract submission will be e-mailed to you

Free papers (*maximum 250 words*) - Abstracts should state briefly and clearly the purpose, methods, results and conclusions of the work.

Introduction: Clearly state the purpose of the abstract

Methods: Describe your selection of observations or experimental subjects clearly

Results: Present your results in a logical sequence in text, tables and illustrations

Discussion: Emphasize new and important aspects of the study and conclusions that are drawn from them

Clinical lessons (*maximum 250 words*) - Abstracts for the Clinical Lessons session should be cryptic ie not give the game away! Successful submissions usually have a clear 'take-home' message.

If you are submitting a clinical case report then please complete both sections on the form and use a cryptic title for your abstract. The first section (Abstract) needs to mention the diagnosis and the lessons learnt for the selection committee and the second section (abstract without diagnosis) is the same abstract but specifically doesn't mention the diagnosis.

- **The deadline for submission of abstracts is 5 pm, 25th March 2022.** Please note that you will not receive any reminders before this date. Authors will be notified of acceptance by the 8th April 2022

For queries, please contact:

Dr Chris Chiu

BIA Scientific & Research Secretary
